HSP2023 Tentative Schedule

Thursday March 9th

Time	Title	Speaker(s)
8:00-8:20	**Breakfast/registration**	
8:20-8:30	**Welcome**	Vice Provost Amanda Godley
Session 1		**Chair: Kristen Tooley**
8:30-9:00	Producing unbounded dependencies: evidence from structural priming of *that*	Shota Momma
9:00-9:30	Interaction between dependency formation and the online ambiguity resolution process	Hiroki Fujita, Masaya Yoshida
9:30-10:00	Assessing effects of individual differences in text exposure on language comprehension	Anastasia Stoops, Jessica Montag
10:00-10:30	**Coffee**	
Session 2		**Chair: Emily Atkinson**
10:30-11:00	Knowledge and processing affect online prediction in developmental language disorder	Justin Kueser, Arielle Borovsky, Patricia Deevy, Claney Outzen, Laurence Leonard
11:00-11:30	Adjunct control in children is predicted by working memory (but not inhibitory control)	Juliana Gerard, Dana McDaniel
11:30-12:15	**Invited talk:** What is 'language experience'? Perspectives from sentence processing	Ariel James
12:15-1:30	**Lunch on your own**	
Session 3		**Chair: Dave Kush**
1:30-2:00	A large, rare processing cost underlies garden path effects: an rt distribution approach	Kuan-Jung Huang, Brian Dillon
2:00-2:30	Studying relative clause representations: a novel parsing model and priming paradigm	Grusha Prasad, Tal Linzen
2:30-3:00	Good-enough processing versus rational inference in linguistic illusions: modeling judgments of formal correctness and meaning recoverability with a race model	Dario Paape
3:00-3:30	**Coffee**	
Session 4		**Chair: Mike Dickey**
3:30-4:15	**Invited Talk:** Assessing text readability: Past, present, and future	Scott Crossley
4:15-4:45	Linguistic and cognitive event units across languages	Sarah Hye-Yeon Lee, Alessandra Pintado-Urbanc, Anna Papafragou, Ercenur Ünal

4:45-5:15	Aspectual processing and event perception	Ugurcan Vurgun, Yue Ji, Anna Papafragou
5:15-5:50	**Speed Mentoring**	
5:50-7:00	**POSTER SESSION 1**	

Friday March 10th

8:00-8:30	**Breakfast**	
Session 5		**Chair: Emily Morgan**
8:30-9:00	The dark side of prediction: pervasive false memories for nouns predicted but not seen	Katja Haeuser, Jutta Kray
9:00-9:30	Large-scale evidence for logarithmic effects of word predictability on reading time	Cory Shain, Clara Meister, Tiago Pimentel, Roger Levy
9:30-10:00	Pinny or penny? Dialect differences and their effect on phonological encoding	Brett Myers, Cassandra Jacobs, Andres Buxo-Lugo, Duane Watson
10:00-11:00	**POSTER SESSION 2**	
Session 6		**Chair: Laurel Brehm**
11:00-11:30	Novel analysis of response bias challenges representational accounts in attraction	Utku Turk, Pavel Logacev
11:30-12:15	**Invited Talk:** In what specific ways—if any—does a reader's first language matter when they read a second language?	Charles Perfetti
12:15-12:45	The processing consequences of exposure to and evaluation of inaccurate sentence content	David Rapp, Nikita Salovich
12:50-2:15	**POSTER SESSION 3 with lunch included**	
Session 7		**Chair: Sarah Phillips**
2:15-2:45	Speech adaptation in a moment and over a month	Xin Xie, Chigusa Kurumada
2:45-3:15	What do the eye-movements of skilled deaf readers reveal about bilingual readers?	Frances Cooley, Elizabeth Schotter
3:15-3:45	Deaf readers' processing of written English: visual information processing and language transfer	Matthew J Traxler, David P Corina, Tamara Y Swaab, Katherine Sendek, Deborah M Cates
3:45-4:15	**Coffee**	
Session 8		**Chair: Ariel James**
4:15-5:00	**Invited talk:** Oral language skills and reading comprehension in English-French bilinguals	Becky Xi Chen

5:00-5:30	Auditory perceptual simulation (aps): psycholinguistic effects, pedagogical aspirations	Kiel Christianson, Laura P. Valderrama, Danyi Chen, Jack Dempsey
7:00-11:00	**Conference Party**	

Saturday March 11th

8:00-9:00	**VIRTUAL POSTER SESSION**	
9:00-9:30	**Breakfast**	
Session 9		**Chair: Lin Chen**
9:30-10:15	**Invited talk:** Getting Explicit about Syntax: Measuring and Teaching Sentence Structure to Improve Children's Reading and Writing	Suzanne Adlof
10:15-10:45	The cognitive origins of legalese	Eric Martinez, Francis Mollica, Ted Gibson
10:45-11:05	**Coffee**	
Session 10		**Chair: Botagoz Tusmagambet**
11:05-11:35	They know who speak this way: knowledge of variation in listeners with different experiences of African American language	Zachary Maher, Jan Edwards, Jared Novick
11:35-12:20	**Invited talk:** From construct to classroom: Reflections on the design of an assessment and curricular approach to support academic register learning in middle grade classrooms	Emily Phillips Galloway
12:20-1:35	**Lunch on your own**	
1:35-2:20	**Discussant Panel-** Linking sentence processing, education, and literacy	Kiel Christianson; Rachel Romeo
2:20-3:25	**POSTER SESSION 4**	
Session 11		**Chair: Benjamin Weissman**
3:25-3:55	Large-scale data reveals structure in pragmatic language phenomena	Sammy Floyd, Olessia Jourvalev, Zach Mineroff, Ev Federenko, Ted Gibson
3:55-4:25	Hearing pronouns primes speakers to use pronouns	Jennifer Arnold
4:25-4:40	**Thanks/Announcements**	
4:40-5:10	Investigating the processing of singular they using a web-based maze task	Ella Shenkar, Nadia Mansoor, Ji Su Ahn, Leah Owen-Oliner, Peiyao Chen, Daniel Grodner
5:10-5:40	Memory retrieval is sensitive to discourse status: through the lens of pronoun resolution	Sanghee Kim, Ming Xiang

Poster session 1

Poster #	Submission Title	Authors
1.1	Second Language Learners Vary in Adaptation to Sentence Structures	Edith Kaan, Haoyun Dai, Xiaodong Xu
1.2	Bilinguals' referential choice in inter-sentential code-switching	Carla Contemori
1.3	Prediction, structure building and retrieval interference in L1 and L2 sentence processing	Hiroki Fujita, Shatha Alaskar, Ian Cunnings
1.4	A Computational Model of Sentence Comprehension, Production, and Working Memory	Steven Schwering, Maryellen MacDonald
1.5	On the Bigger-is-Worse Nature of Pre-Trained Language Model Surprisal	Byung-Doh Oh, William Schuler
1.6	A serial monitoring process accounts for timing and task effects in argument role reversals	Masato Nakamura, Colin Phillips
1.7	Two models of how long it takes to answer a comprehension question	Garrett Smith
1.8	Lexical-semantic expectation modulates retrieval interference in relative clauses	Michael A Wolfman, Luca Campanelli, John Hale
1.9	Formal language and computational complexity: seeking explanations for subregular natural language patterns	Charles Torres, Richard Futrell
1.10	A Cross-Linguistic Pressure for Uniform Information Density in Word Order	Thomas Clark, Clara Meister, Tiago Pimentel, Michael Hahn, Ryan Cotterell, Richard Futrell, Roger Levy
1.11	What Large Language Models (don't) Reveal about Semantic Illusions	Sathvik Nair, Shohini Bhattasali, Philip Resnik, Colin Phillips
1.12	ERP indicators of word-to-text integration (WTI) processes during reading comprehension: Can the reader's situation model overrule lexical retrieval effects?	Weiqi Wang, Vivek Rajkumar, Anne Helder, Charles Perfetti
1.13	N400(-like) modulations at target words index prediction in language processing	Yan Sun, Jeffrey Green
1.14	Neural response to coordination reflects interpretive processes, not syntactic connectedness	Ellen Lau, Xiaoyu Yang

1.15	Cortical tracking of phrases is modulated by both structure and statistics	Junyuan Zhao, Cas Coopmans, Andrea Martin
1.16	Sustained cognitive control affects sentence processing: Evidence from neural oscillations	Valerie Langlois, Tal Ness, Jared Novick, Albert Kim
1.17	Theta-band oscillatory activity as a marker of cognitive control in language processing	Tal Ness, Valerie Langlois, Jared Novick, Albert Kim
1.18	Proactive control in processing English wh-dependencies: an EEG study	Keng-Yu Lin, Edith Kaan
1.19	Maze Correlates of N400 Responses in English Argument Structure Processing	Montana Thommes, Dawn Lau, Thea Kendall-Green, Lisa Levinson
1.20	Transformer-Maze: An Accessible Incremental Processing Measurement Tool	Annika Heuser, Edward Gibson
1.21	Independent processing of animacy and gender features in Polish: eyetracking evidence	Zuzanna Fuchs
1.22	When is a ranana a banana? Repair and novel word learning in context	Laurel Brehm, Nora Kennis, Christina Bergmann
1.23	Robust evidence of predictive lexical processing in adults with (and without) autism	Tatyana Levari, Beatriz Leitao, Jesse Snedeker
1.24	Predicting disjoint reference: offline and online evidence	Ozge Bakay, Jon Burnsky, Maayan Keshev, Mariam Asatryan, Kyle Johnson, Brian Dillon
1.25	Corrective Prosody is Semantic, not Information Theoretic: An Online Speech Production Study	Moshe Poliak, Xinzhu Fang, Michelle Ali, Leon Bergen, Edward Gibson
1.26	Cat[s], dog[z], and leash[ɨz]: evidence for processing differences among regular allomorphs in spoken language production	Jane Li, Sofia Rest, Colin Wilson
1.27	Scalar implicature rates vary within and across adjectival scales	Helena Aparicio, Eszter Ronai
1.28		
1.29	Semantic cues affect word order in production under message uncertainty	Arella Gussow, Maryellen MacDonald
1.30	Contextual and extra-linguistic effects on subjective adjectives: A matter of opinion?	Elsi Kaiser, Haley Hsu
1.31	Grammatical gender uninformative during bilingual language comprehension	Sarah F Phillips, Ailís Cournane

1.32	The Role of Knowledge Congruity of conversational Partners in a three-party conversation	Xinyu Zhao, Xiaobei Zheng
1.33	Optional resumption is used to overcome local ambiguity in Hebrew	Mandy Cartner, Maayan Keshev
1.34	Neural correlates of pronoun processing: An activation likelihood estimation meta-analysis	Loubna El Ouardi, Yasmeen Faroqi-Shah, Mohamed Yeou
1.35	The underspecification of themselves	Cassie Davenport, Masaya Yoshida
1.36	Number and gender attraction in Spanish pronoun production	Margaret Kandel, Claudia Pañeda, Nasimeh Bahmanian, Mercedes Martinez Bruera, Colin Phillips, Sol Lago
1.37	Dependency formation, similarity-based interference and local coherence	Hiroki Fujita, Masaya Yoshida
1.38	Phrase-Superiority Effect and Memory Organization	Fengyun Hou, Nina Kazanina
1.39	Nested versus crossed dependencies: Re-examining German and Dutch verb clusters	Himanshu Yadav, Stefan Frank, Richard Futrell, Samar Husain
1.40	When "Mary broke up John" becomes acceptable: On the trend of transitivization in Mandarin	Chia-Hsuan Liao, Jia-Ying Tsai
1.41	Detecting the antecedent complexity on VPE resolution: effects of semantic plausibility	Jiayuan Yue, Ming Xiang
1.42		
1.43	The role of Anti-Agreement in the comprehension of relative clauses in Tachelhit	Imane Bou-Saboun
1.44	Effects of Pre-Verbal and Post-Verbal Processing on Garden-Path Effects and its Difference by Working Memory Capacity	Rei Emura, Xiaofang Wu, Shiori Kato, Masatoshi Koizumi
1.45	No Evidence of Theory of Mind Reasoning in the Human Language Network	Cory Shain, Alexander Paunov, Xuanyi Chen, Benjamin Lipkin, Evelina Federenko
1.46	Modeling retrieval interference during naturalistic comprehension	Tzu-Yun Tung, Jonathan Brennan
1.47	Psycholinguistic evaluations of gpt-2 and gpt'3 sensitivity to syntactic hierarchy in English	Hailin Hao
1.48	Donkey drivers and animal teachers: how context modulates novel noun compound interpretation	Tiana Simovic, Barend Beekhuizen

POSTER SESSION 2		
Poster #	Submission Title	Authors
2.1	Three-year-olds generalize verb meanings across syntactic frames in cross-situational verb learning	Yiran Chen, Alexander LaTourrette, John Trueswell
2.2	The use of differential object marking in the interpretation of which-questions in Spanish-speaking children	Pablo Requena, Carla Contemori
2.3	Discourse effects on the acquisition of subordinate nouns	June Choe, Anna Papafragou
2.4	Accurate Story Recall in Peer Conflict Resolution Discourse Task is Indicative of MCI	Sarah Wilson, Sara Sayers, Alex Teghipco, Roger Newman-Norlund, Sarah Newman-Norlund
2.5	A reduced negativity bias in older adults: Predicting affective features of a word in emotionally ambiguous sentences	Li-Chuan Ku, Vicky Tzuyin Lai
2.6	Code-switching in online posts can be modeled as a dual path cognitive process	Debasmita Bhattacharya, Marten van Schijndel
2.7	Code-switching in online posts reveals information-theoretic audience design	Debasmita Bhattacharya, Marten van Schijndel
2.8	The role of cross-language similarity and musical ability/training in second language sentence processing	Victoria Tkacikova, Gabriela Terrazas, L. Slevc, Natasha Tokowicz
2.9	Implicit causality, individual differences in pronoun processing, and rapid prediction	Jeffrey Green
2.10	Top-down goals modulate the use of argument roles in prediction: Evidence from ERPs	Eun-Kyoung Lee, Colin Phillips
2.11	Intracranial recordings of distinct cortical mosaics for semantic integration	Elliot Murphy, Kiefer Forseth, Cristian Donos, Patrick Rollo, Nitin Tandon
2.12	Emotionality and task goals influence metaphor processing: evidence from ERPs	Laura Baiocco, Valeria Pfeifer, Vicky Lai
2.13	Cognitive control in language processing: the influence of cue reliability	Tal Ness, Valerie Langlois, Albert Kim, Jared Novick
2.14	Structural iconicity underpins subject-verb word order: Evidence from improvised gesture	Angelika Kiss, Rebecca Tollan, Daphna Heller
2.15	Evidence for mid-event object state representations in sentence processing	Emma Wing, Gerry Altmann
2.16	Online interpretation of specific singular they	Bethany Gardner, Sarah Brown-Schmidt

2.17	Updating predictions incrementally: Listeners are able to process new information following prediction errors	Kayla Keyue Chen, Wing-Yee Chow
2.18	Chasing pragmatics: an experimental study of bare noun interpretation	Daria Bikina
2.19	Online comprehension of nonbinary "they" is easier with supporting linguistic context	Jennifer Arnold, Nicholas Payst, Eri Kakoki, Lucia Wang
2.20	Implicit Causality Affects Pronoun Use for Speakers (But Not Writers)	Yining Ye, Jennifer Arnold
2.21	SEMANTIC NETWORK DEVELOPMENT IN SECOND LANGUAGE SPANISH AND ITS IMPACT ON PROCESSING SKILLS	Maria Puscama
2.22	Generative knowledge and item-specific knowledge trade off as a function of frequency in multiword expression processing	Emily Morgan, Roger Levy
2.23	Rethinking the complement coercion interpretation: evidence from probe recognition	Barend Beekhuizen, Frederick Gietz
2.24	Attributions and predictions of social meaning in others: the case of English role nouns	Benjamin Weissman
2.25	The Influence of Prior Semantic Knowledge in Noisy Channel Interpretation	Bradli Washington, Sihan Chen, Edward Gibson
2.26	Crosslinguistic Interpretation of Logical Connectives: Negation, Conjunction, and Disjunction in English, Hungarian, Mandarin Chinese, and Spanish	Masoud Jasbi, Natalia Bermudez, Yuhan Zhang, Réka Siro, Kathryn Davidson
2.27	Vagueness, Adaptation & Meaning Resilience	Helena Aparicio, Altria Wang
2.28	Narrowing the source of argument role (in)sensitivity in verb processing using two simple lexical tasks	Masato Nakamura, Colin Phillips
2.29	Filler-gap dependencies alter compositional units in sentence production	Shota Momma
2.30	Investigating Persistence of IPB Rates During a Story-telling Task	Kristen Tooley, Jordan Westenberg, Agnieszka Konopka, Duane Watson
2.31	A new look at egocentricity in reference resolution: Ambiguity in subjective adjectives	Elsi Kaiser, Haley Hsu
2.32	Investigating the influence of negation on sentence informativity	Nicole Lobo, Tessa Warren

2.33	Existing in time has a cost: A judgment acceptability study on the temporal concord processing of the auxiliary verbs you and hui in Taiwan Mandarin	Aymeric Collart
2.34	Noisy Channel Inferences in Agreement Attraction	Hailin Hao, Elsi Kaiser, Michael Hahn
2.35	Online and offline processing in zeugma constructions is insensitive to argument order	Cassandra Jacobs, Aniello De Santo, Loïc Grobol
2.36	The Effect of Determiner Type on Quantifier Scope Ambiguity in English and Bengali	Ishani Guha, Swarnendu Moitra, Paul Marty
2.37	Calling off the search: Evidence for syntactic prediction during filler-gap dependency resolution	Michael Dover, Masaya Yoshida
2.38		
2.39	The role of prediction in retrieval interference: The case of reflexive attraction	Maayan Keshev, Matt Wagers, Brian Dillon
2.40	Island effects persist despite context: The case of double relatives in Japanese	Maho Takahashi, Grant Goodall
2.41	Mandarin speakers predict upcoming arguments in dative constructions based on categorical and gradient verb bias	Yanxin Zhu, Theres Grüter
2.42	Attraction effects in pronominal dependencies	Emily Graham, Jeffrey Witzel
2.43	Predictive parsing as a source for resumptive pronoun preference in Hebrew	Mandy Cartner, Ivy Sichel, Maziar Toosarvandani, Matt Wagers
2.44	Animacy effects in Tagalog relative clause processing	Ivan Bondoc, Dave Kush
2.45	Robust Effects of Working Memory Demand in Language-Selective Cortex	Cory Shain, Idan Blank, Ev Fedorenko, Ted Gibson, William Schuler
2.46	Neural activation related to the foreign language effect in moral dilemmas	Yuling Zhong, Xiaodong Xu, Chuanbin Ni
2.47	Sentential context impacts bilingual speech-in-speech recognition	Holly A. Zaharchuk, Victoria Medina, Sarah Paterno, Navin Viswanathan, Janet G. Van Hell
2.48	Heuristic versus algorithmic parsing in second language comprehension: korean suffixal passive and morphological causative constructions	Chanyoung Lee, Gyu-Ho Shin, Boo Kyung Jung
POSTER SESSION 3		
Poster #	Submission Title	Authors

3.1	Novel Morphological Processing During L1 and L2 Spanish Reading	Lindsey Chandler
3.2	Vocabulary supports event probability cues in developmental language disorder	Justin Kueser, Patricia Deevy, Arielle Borovsky, Michelle Indarjit, Mine Muezzinoglu, Claney Outzen, Laurence Leonard
3.3	Syntactic adaptation and long-term retention guide word learning in toddlers	Yukun Yu, Naomi Havron, Sandra Waxman, Cynthia Fisher
3.4	Children make robust lexical predictions in a naturalistic context	Briony Waite, Anthony Yacovone, Jesse Snedeker
3.5	Pronoun use reflects gender bias against different occupations	Yuhan Zhang, Xinrui Li, Lin Bian
3.6	Turkish relative clauses and the role of syntactic connectivity in agreement attraction	Elifnur Ulusoy, Matt Wagers
3.7	Facilitative use of classifiers in heritage Vietnamese	Hoan Nguyen, Theres Grüter
3.8	Cross-language masked prefix priming	Jeonghwa Cho, Jonathan Brennan
3.9	Non-native disadvantage in speech perception in noise	Mai Miura, Benjamin Zinszer
3.10	Spotting the lect: a study of trilectally literate adolescents in Norway	Anya Vinichenko, Unn Røyneland, Øystein Vangsnes
3.11	Is reading the same as translation in young multi-lectal speakers?	Björn Lundquist, Anya Vinichencko, Maud Westendorp, Maria Fenes, Øystein Vangsnes
3.12	Effects of grammaticality and literacy on morphosyntactic processing in a heritage language	M. Cole Callen
3.13	The Semantic Effect on the Perception of Emotional Prosody in Mandarin Chinese	Cheng Xiao, Jiang Liu
3.14	Native and non-native processing of Mandarin relative clauses with brief contexts	Deran Kong, Sun-A Kim, Yu-Yin Hsu
3.15	Bridging production and comprehension: A computational model of error generation and correction	Jiaxuan Li, Shiva Upadhye, Richard Futrell
3.16	Early Interaction Effects of Word Type and Frequency on Lexical Decision Processes	Joshua Krause, Jelmer Borst, Jacolien van Rij

3.17	Probabilistic Listener: A Case of Reflexive ziji "self" Ambiguity Resolution in Mandarin	Fengyue Zhao, Brian Dillon, Ming Xiang
3.18	Grokking Wug Vectors	Jacob Matthews, Marten Schijndel
3.19	An NLP investigation into writing profiles in successful and less successful academic writing	maria goldshtein, Amin Alhashim, Rod Roscoe
3.20	Tracking dynamic word-by-word incremental reading through EEG measures: predictive processes in non-native reading	Gaisha Oralova, Lin Chen, Charles Perfetti
3.21	Singular they in transition: ERP evidence	Peiyao Chen, Olivia Levanthal, Sadie Camilliere, Kali Blain, Amanda Izes, Daniel Grodner
3.22	The effect of representation complexity and coherence on working memory processes	Chi-Dat Lam, Ming Xiang
3.23	Vocabulary instruction influences subsequent word processing during sentence reading	Sarah Hughes-Berheim, Spyridoula Cheimariou, John Shelley-Tremblay, Sharlene Newman, Jason Scofield, Laura Morett
3.24	Is braille an inefficient learning modality for blind students? A training study with policy implications	Lindsay Harris, Allison Gladfelter, Alecia Santuzzi, Iwona Lech, Rocio Rodriguez, Luis Lopez, Dawn Soto, Ailing Li
3.25	An eye-tracking replication without an eye tracker: Capturing predictive sentence processing of accented speech via the internet	Adam Bramlett, Chun-Ying Tu, Xiaohan Liu, Seth Wiener
3.26	The role of literacy on morphosyntactically-based prediction during spoken language comprehension in low-income speakers	Jessica Vélez-Aviles, Paola (Giuli) Dussias
3.27	Typical psycholinguistic designs require more items to detect reliable individual differences in focal linguistic effects	Van Rynald Liceralde, Duane Watson
3.28	Variation in language exposure influences constructional preferences	Michelle Perdomo, Duane Watson
3.29	Understanding the Link Between Digital Text Exposure and Grammatical Processing	Ansley Potter, Michelle Perdomo, Ariel James, Duane Watson
3.30	Relative Informativity of Word Order, Thematic Reversibility and Case-marking: Evidence from Spoken Turkish	M.Yarkin Ergin, Karin Stromswold

3.31	Online sentence comprehension is related to language knowledge in children with DLD	Kathleen Oppenheimer, Samantha Weatherford, Yi Ting Huang, Amanda Owen Van Horne
3.32	Syntactic and semantic processing in poor comprehenders: Evidence from eye-tracking, computational modeling, and scanpaths analysis	Luca Campanelli, Julie Van Dyke, Nicole Landi
3.33	Surprisal and Word Length Predict Word Errors in Stroke-Induced Aphasia	Thomas Clark, Edward Gibson, Roger Levy
3.34	Does ADHD impact orthographic learning in people with dyslexia?	Sachi Paul, Kailee Lear, Anna Chrabaszcz, Corrine Durisko, Julie Fiez
3.35	ADHD Symptoms Intensify the Effects of Background Noise on Speech Perception	Elizabeth Rosenthal, Benjamin Zinszer
3.36	Anaphora resolution in Vietnamese: On the effects of person feature constraints on the interpretation of reflexive 'mình'.	Linh Pham, Thuy Bui, Alexander Goebel, Elsi Kaiser
3.37	Orthographic Learning in Adults through Overt and Covert Reading	Anna Chrabaszcz, Nadait Gebremedhen, Travis Alvarez, Corrine Durisko, Julie Fiez
3.38	Bayesian pronoun interpretation in English corpus passage completions	Xixian Liao, Laia Mayol, Hannah Rohde
3.39	Word order in illiterate and semi-illiterate deaf signers with late onset of Chinese Sign Language	Qi Cheng, Hao Lin, Jesse Snedeker
3.40	Including pronouns on nametags and in introductions supports production of singular they	Bethany Gardner, Sarah Brown-Schmidt
3.41	Integrating contextual information in on-line alternative set construction	Morwenna Hoeks, Amanda Rysling, Maziar Toosarvandani
3.42	Animacy and event structure modulate long-distance pronominal anaphora in discourse	Kelsey Sasaki, Pranav Anand, Amanda Rysling
3.43	Crossed vs. nested dependencies and cross-linguistic variability in islands	Maho Takahashi, Grant Goodall
3.44	Local Ambiguity in Mandarin Relative Clauses: Effects of (Mis-)Matching Classifiers	Xiaoyi Tang, Peter Nelson, Rebecca Tollan
3.45	Explanation coherence inside sentences, but only offline	Runyi Yao, E. Husband, Kelsey Sasaki, Daniel Altshuler
3.46	Regular but not decomposed?: influence of verb and form on Japanese verb morphology	Nana Tsuchiya, Hajime Ono

3.47	Russian blues do not reveal an effect of language on perception: a reanalysis of the original study	Sihan Chen, Bevil Conway, Edward Gibson
3.48	How linguistic exposure modulates the acceptability of object-extracted wh-questions	Abby Bertics, Edward Gibson
3.49	Tracking the dynamic word-by-word incremental reading through behavioral and EEG measures	Lin Chen, Gaisha Oralova, Charles Perfetti

POSTER SESSION 4		
Poster #	**Submission Title**	**Authors**
4.1	'Good-enough' processing, home language proficiency, and cognitive skills for heritage speakers' sentence comprehension: Evidence from Korean suffixal passive construction	Gyu-Ho Shin
4.2	Thematic Role and Grammatical Aspect Predict Patterns of Coreference in Spontaneous Speech to Children	Amanda Yuile, Cynthia Fisher
4.3	The Feasibility of Online (Virtual-world) Eye-tracking with Young Children	Zoe Ovans, Amelia Ayala, Rhosean Asmah, Anqi Hu, Monique Montoute, Amanda Van Horne, Zhenghan Qi, Giovanna Morini, Yi Ting Huang
4.4	Only fully matching attractors produce attraction: evidence from Hebrew comprehension	Idan Keissar, Aya Meltzer-Asscher
4.5	Alignment between adult and child predictive processing dynamics: Evidence from a gamified cloze study in a museum	Eun-Kyoung Lee, Katherine Howitt, London Dixon, Tal Ness, Masato Nakamura, Hanna Muller, Colin Phillips
4.6	The physical proximity or mental consistency? ---- how people adjust perspectives between two speakers	Xiaopei Lin, Le Chen, Xiaobei Zheng
4.7	Native Listeners' Sensitivity to Morphophonological Cues on the Arabic Definite Article	Hind Aldakheelallah, Cynthia Lukyanenko
4.8	When speech disfluencies affect truth judgments but not memory	Jenna DiStefano, Sarah Bibyk, Evgeniia Diachek, Lisa Fazio, Duane Watson
4.9	Non-literal Syntactic Representations Are Activated by Prediction and Post-Hoc Revision	Douglas Getty, Scott Fraundorf

4.10	Evidence for Syntax-Lexicon Trade-off in Stroke-Induced Aphasia Patients	Thomas Clark, Roger Levy, Edward Gibson
4.11	On the Effect of Anticipation on Reading Times	Tiago Pimentel, Clara Meister, Ethan Wilcox, Roger Levy, Ryan Cotterell
4.12	Memory-Based Predictors From GPT-2 Attention Predict Reading Times Over Surprisal	Byung-Doh Oh, William Schuler
4.13	A Minimalist Parsing Analysis of Subject/Object Asymmetries in Basque Relative Clauses	Matteo Fiorini, Jillian Chang, Aniello De Santo
4.14	A Minimalist approach to the processing of postverbal subjects in French relative clauses	Daniel Del Valle, Aniello De Santo
4.15	Evidence for Experiencer thematic role as a conceptual category.	Marta Sánchez López, Mikel Santesteban, Itziar Laka
4.16	Immediate processing costs for place-for-institution metonyms appearing as subjects	Matthew Lowder, Miranda Moe, Tolya Evdokimov
4.17	Math to Language Structural Priming in Comprehension: An Eye-tracking Investigation	Kristen Tooley, Paul Christian Dawkins, Natalie Castro, Ashley Campos
4.18	Resolving illusions of plausibility: Competition between syntax and semantics over time	Kate Stone, Milena Rabovsky
4.19	Representational complexity facilitates working memory maintenance: an ERP study	Chi-Dat Lam, Ming Xiang
4.20	The Goal Bias Emerges Early in Motion Event Inspection and Speech Planning: Evidence from Eye-Movements	Yiran Chen, John Trueswell, Anna Papafragou
4.21	Investigating how the processing time for events in language scales with their real-world duration	Wesley Leong, Gerry Altmann
4.22	Real-time pronoun processing during audiobook exposure	Magdalena Repp, Petra Schumacher
4.23	The influence of action continuity on reference form in Mandarin and English	Heeju Hwang, Suet Ying Lam
4.24	Binary pronoun structures prime nonbinary pronoun interpretation	Jennifer Arnold
4.25	Using Perspective Cues in Pronoun Resolution during Online Reading	Tiana Simovic, Craig Chambers
4.26	Discourse Foregrounding Ameliorates Manner-of-Speaking Islands	Dingyi Pan, Jiayi Lu, Judith Degen
4.27	Top-down expectations vs. bottom-up information in prosodic memory	Lalitha Balachandran, Morwenna Hoeks, Nicholas Van Handel, Amanda Rysling

4.28	Clefting and Prosody in ellipsis sentences in Brazilian Portuguese	Aline Fonseca, Julia Carvalho, Andressa Silva
4.29	Intonation affects rate of scalar inferences: production and perception data from English	Eszter Ronai, Alexander Göbel
4.30	Salient phonological information modulates the effect of semantic priming in prediction	John Starr, Helena Aparicio, Draga Zec, Marten van Schijndel
4.31	Phonological structure influences incremental syntactic processing	John R Starr, Marten van Schijndel, Helena Aparicio, Draga Zec
4.32	"Every" provides an implicit comparison class when "each" does not	Tyler Knowlton, Florian Schwarz
4.33	Using webcam eye-tracking to replicate subtle sentence processing effects	Valerie Langlois, Tal Ness, Albert Kim, Jared Novick
4.34	Labeling novel entities in mass-count and classifier languages	Sarah Hye-yeon Lee, Lea Mangifesta, Yue Ji, Anna Papafragou
4.35	Production of singular they: Social biases and gender features on pronouns	Elsi Kaiser, Claire Post
4.36	When the parser revises garden-path sentences and when it does not	Hiroki Fujita
4.37	Syntactic Adaptation: A Generalization and Evidence for an Expectation-Based Account	Varvara Kuz, Buhan Guo, Ya Liu, Conghao Zhang, Yuqian Zhang, Andrea Santi
4.38	Pronouns are susceptible to attraction in comprehension	Dan Parker
4.39	Clitic Left Dislocation in Spanish: Island sensitivity without gaps	Alejandro Rodríguez, Grant Goodall
4.40	Working memory capacity for language processing: set size and information load effect	Yunsong Li, Ming Xiang, Suiping Wang
4.41	Perceptual salience and structural ambiguity resolution	Jeffrey Witzel, Naoko Witzel
4.42	Multilingual A-maze: Generating Maze Experiments in Mandarin and Beyond	Lisa Levinson, Yizhi Tang, Lucy Chiang, Wei-Jie Zhou, Sohee Chung
4.43	Metric Grammars	Whitney Tabor, Sandra Villata
4.44	Reflexive-antecedent search modulates gap formation: Evidence from Hebrew	Mandy Cartner, Edward Kishinevsky, Naama Gidron, Aya Meltzer-Asscher

4.45	Lexical Retrieval and Probabilistic Inference Dissociate in Naturalistic Reading	Cory Shain
4.46	Probing for incremental parse states in autoregressive language models	Tiwalayo Eisape, Vineet Gangireddy, Roger P Levy, Yoon Kim
4.47	Autism Spectrum Disorder: Multisensory Integration Abnormalities Elucidated via Speech in Noise Perception	David F Akinsooto, Katherine P Hart, Benjamin Zinszer

REMOTE POSTER SESSIONS

All *synchronous* poster sessions will take place at 8:00-9:00 AM Pittsburgh time (GMT -5) on Saturday, March 11th.   There will be about 5 minutes for each individual presentation, followed by time for discussion in which attendees can join an individual breakout room for discussion with the authors of each poster.

REMOTE SESSION #1: BILINGUALISM & L2 SENTENCE PROCESSING
HOST: Diya Goyal

Poster #	ETA	Author(s)	Title
R1.1	8:02	Katya Shcheglova, Tatiana Bolgina, Ekaterina Iskra, Olga Dragoy	Voxel-Based Morphometry in Children with Dyslexia and Healthy Controls: a Comparison of Pipelines
R1.2	8:08	Yubin Xing, Laura Sabourin	Balanced English-French bilinguals show co-activation of two grammars: Evidence from adverb placement processing
R1.3	8:14	Carine Abraham	Can L2 speakers use L1 discourse strategies when generating expectations?
R1.4	8:20	Agnieszka Konopka	Memory for L2 speech is predicted by degree of L2 exposure

REMOTE SESSION #2: FORMAL STRUCTURES I
HOST: Vika Tkacikova

Poster #	ETA	Author(s)	Title

Poster #	ETA	Presenter	Title
R2.1	8:02	Cristiano Chesi, Achille Fusco	Processing person features in D: a cleft study in Italian
R2.2	8:08	Veronica Bressan, Adriana Belletti, Cristiano Chesi	Which vs. What NP: the role of D-linking and "lexical restriction"
R2.3	8:14	Zheng Shen, Nick Huang	Effects of creation verbs on wh-dependencies in English and Chinese
R2.4	8:20	Zheng Shen	Evaluating information structure and semantics approaches to locality in Colloquial Singapore English
R2.5	8:26	Daoxin Li, Kathryn Schuler	Distributional learning of recursive structures: The role of the structural representation

REMOTE SESSION #3: FORMAL STRUCTURES II
HOST: Cole Caudle

Poster #	ETA	Presenter	Title
R3.1	8:02	Chenxi Duan, Siyuan Peng, Fuyun Wu	Subject over object advantage in Chinese prenominal relative clauses, with or without syntactic cues: An eye-tracking while reading study
R3.2	8:08	Han Zhou, Conghui Zhu, Fuyun Wu	Relative clauses of varying semantic contents modulate causal relationship expectations in discourse processing
R3.3	8:14	Marije Soto, Marina Augusto, Maria Clara Abend Floripes	RESUMPTIVE PRONOUNS IN OBJECT RELATIVE CLAUSES: a self-paced reading study in Brazilian Portuguese
R3.4	8:20	Rui Chaves, Elaine Francis	Enduring effects of repeated exposure to Subject Islands: evidence for syntactic adaptation
R3.5	8:26	Irina Sekerina, Petra Schumacher, Valeriia Madina, Clare Patterson	How interpretative preferences of personal and demonstrative pronouns develop in Russian

REMOTE SESSION #4: METHODOLOGICAL ADVANCEMENTS
HOST: Adam Bramlett

Poster #	ETA	Presenter	Title
R4.1	8:02	Anna Laurinavichyute, Himanshu Yadev, Shravan Vasishth	Share the code, not just the data
R4.2	8:08	Sarah Brown-Schmidt, Sun-Joo Cho, Paul De Boeck, Matthew Naveiras	Space-Time Modeling of Intensive Binary Time Series Eye-Tracking Data Using a Generalized Additive Logistic Regression Model
R4.3	8:14	Songhee Kim, Jeffrey Binder, Lisa Conant	Decomposing unaccusativity: a computational approach
R4.4	8:20	Ethan Wilcox, Tiago Pimentel, Clara Meister, Ryan Cotterell	An Information-theoretic Analysis of Regressions in Naturalistic Reading
R4.5	8:26	Omer Shubi, Yevgeni Berzak	Eye Movements in Information-Seeking Reading

REMOTE SESSION #5: MIND, MEMORY, AND STRUCTURES
HOST: Jess Macaluso

Poster #	ETA	Presenter	Title
R5.1	8:02	Evgeniia Diachek, Sarah Brown-Schmidt	Referential modification does not shape memory for distinct object features
R5.2	8:08	Fengyun Hou, Nina Kazanina	Phrase-Superiority Effect and Memory Organization
R5.3	8:14	Sidharth Ranjan, Rajakrishnan Rajkumar, Sumeet Agarwal	Interplay of Memory Interference and Syntactic Complexity in Hindi Comprehension
R5.4	8:20	Jan Engelen, Claudia Gerards	The Role of Age, Reading Skill, and Working Memory in Predicting Sentence-final Nouns

REMOTE SESSION #6: NEW INSIGHTS AND PRAGMATICS
HOST: Michelle Colvin

Poster #	ETA	Presenter	Title
R6.1	8:02	Adina Camelia Bleotu, Rodica Ivan, Gabriela Bîlbîie, Mara Panaitescu, Monica Casa, Andreea Nicolae, Anton Benz, Lyn Tieu	Experimental insights into markedness and the interpretation of disjunction in Romanian
R6.2	8:08	Pia Schoknecht, Himanshu Yadav, Shravan Vasishth	How are cues combined during cue-based retrieval?
R6.3	8:14	Steven Foley, Kirby Conrod, Byron Ahn, Ameena Faruki, Xander Guidry, Ruth Schultz	Depending on their social group, the comprehender might process cataphora differently
R6.4	8:20	Veronica Boyce, Robert Hawkins, Noah Goodman, Michael Frank	Thick feedback facilitates referential coordination in larger groups

REMOTE SESSION #7: PREDICTIVE PROCESSING—AGREEMENT AND CLASSIFIERS
HOST: Doug Getty

Poster #	ETA	Presenter	Title
R7.1	8:02	Daria Antropova, Daria Chernova, Natalia Slioussar	Differences between gender, number and case processing: evidence from Russian
R7.2	8:08	Varvara Magomedova, Kirill Chuprinko, Natalia Slioussar	In search of the unmarked gender: evidence from Russian
R7.3	8:14	Anna Laurinavichyute, Himanshu Yadav, Titus von der Malsburg, Shravan Vasishth	Agreement attraction effects in comprehension depend on task demands

Poster #	ETA	Presenter	Title
R7.4	8:20	Muxuan He, Elsi Kaiser	Not too surprising, not too boring? Goldilocks effects of likelihood in online processing
R7.5	8:26	Yiling Huo, Suiping Wang, Wing-Yee Chow	Do listeners detect prediction errors in lexical tone? An investigation with tone sandhi in Mandarin Chinese shows unexpected prediction inhibition

REMOTE SESSION #8: PRIMING AND AMBIGUITY
HOST: Zoe Zhou

Poster #	ETA	Presenter	Title
R8.1	8:02	Alina Konradt, Roger Van Gompel, Leila Kantola	The lexical boost in priming of adjunct structures: The repetition of any content word will do
R8.2	8:08	Mien-Jen Wu, Tania Ionin	Scopal operation is quantifier-general: Evidence from priming on inverse scope
R8.3	8:14	Jina Song, Elsi Kaiser	Interpretation of multiple pronouns in English: A webcam eye-gaze study
R8.4	8:20	Yue Yu, Zhenguang Cai, Holly Branigan, Martin Pickering	How do people use syntactic information to interpret implausible sentences?
R8.5	8:26	Yutong Zhang, Zuoyan Song, Heeju Hwang	'Give' and 'take' perspective of datives modulates structural priming

REMOTE SESSION #9: READING ACROSS THE LIFESPAN
HOST: Botagoz Tusmagambet

Poster #	ETA	Presenter	Title
R9.1	8:02	Margaret Ryan, Linda Cupples, Iain Giblin, Lyndsey Nickels, Paul Sowman	Object-Experiencer Verbs Are Labile: No Agent Means Slower Reading

Poster #	ETA	Presenter	Title
R9.2	8:08	Anastasiya Lopukhina, Olga Parshina, Vladislava Staroverova, Nina Zdorova, Nina Ladinskaya, Evgenia Pareshina, Diana Djonboboeva, Olga Dragoy	Global reading patterns in Russian-speaking children and adults: a scanpath analysis
R9.3	8:14	Vladislava Staroverova, Anastasiya Lopukhina	Perceptual Span during Silent Reading in Russian Adults and Children
R9.4	8:20	Tiago Pimentel, Clara Meister, Ethan Wilcox, Roger Levy, Ryan Cotterell	On the Effect of Anticipation on Reading Times
R9.5	8:26	Le'an Luo, Xiaolu Yang, Rushen Shi, Stella Christie	Toddlers privilege cross-linguistically common word order in acquisition

REMOTE SESSION #10: SYNTACTIC AND SEMANTIC PROCESSING
HOST: Nicole Lobo

Poster #	ETA	Presenter	Title
R10.1	8:02	Radina Mohamad Deli, Holly Branigan, Vicky Chondrogianni	Age of Acquisition modulates verb semantic effects on implicit causality: Evidence from Malay
R10.2	8:08	Edward Kishenevsky, Aya Meltzer-Asscher	The status of the "missing V2" illusion in Hebrew
R10.3	8:14	Yoko Nakano, Atsushi Yuhaku	Shared Facilitatory Interference in Processing Syntactic and Semantic Features
R10.4	8:20	Nick Huang, Colin Phillips	"Under/overconnection" effects in thematic relations in center-embedding illusions

R10.5	8:26	Dario Paape, Garrett Smith, Shravan Vasishth	Is there any evidence for local coherence effects?
R10.6	8:32	C Jane Lutken, Karin Stromswold	Adults can be childish too: adult errors in response to complex questions

ASYNCHRONOUS POSTERS

Asynchronous posters can be accessed and viewed on the Oxford Abstracts conference site throughout the conference.

POSTER #	AUTHORS	TITLE
A.1	Yichi Zhang, Max Dunn, Zhenguang Garry Cai	Interlocutor modeling in lexical alignment: The role of Theory of Mind
A.2	Jiuzhou Hao, Vasiliki Chondrogianni, Patrick Sturt	Comparing online and offline comprehension of Mandarin non-canonical structures in monolingual children with Developmental Language Disorder vs. heritage children
A.3	Rebecca Holt, Benjamin Davies, Katherine Demuth	Plural comprehension and production: Children with hearing loss catch up by school age
A.4	Anna Kamenetski, Natalia Mitrofanova, Sergey Minor	L1 Transfer Effects in L2 Aspectual Interpretation: Web-Based Eyetracking Evidence from Polish and Norwegian
A.5	Madeleine Long, Aslı Özyürek, Paula Rubio-Fernández	Psychological proximity guides multimodal communication in interactive settings
A.6	Ani Alaberkyan, E. Matthew Husband, Luis Hildebrandt	Distance and universal quantifier restriction in illusory NPI licensing
A.7	José Alemán Bañón, Clara Martin	Investigating lexicosemantic predictions in native and nonnative speakers of English

A.8	Yuxin Ge, Eva Viviani, Michael Ramscar, Elizabeth Wonnacott	Exploring adult learners' discrimination of non-native speech contrasts under an error-driven learning account
A.9	Xue Xia, Chin Lung Yang, Haihua Pan	The processing of classifier-noun agreement in Chinese: an eye-tracking study
A.10	Dato Abashidze, Zurab Oqropiridze	Use of morphosyntactic cues in sentence processing within a rich visual context: Evidence from Georgian
A.11	Walid Irhaymi, Filiz Cele	Revisiting the role of IC verbs in the resolution of RC attachment ambiguity in Arabic
A.12	Ruofang Wang, Craig Chambers, Keisuke Fukuda	Exploring the relation between semantic priming and language processing: An individual differences approach
A.13	W Edward, Yingjuan Tang	Syntactic processing occurs before semantic processing for "ba" structure of Chinese in natural reading: Evidence from eye tracking
A.14	Nayoung Kwon, So young Lee	Interpretation of pronominal elements in Korean
A.15	Yunju Nam, Hyenyeong Chung, Upyong Hong	Word order preferences modulated by canonicality, scrambling, and Given-New information structure in Korean sentence comprehension
A.16	Zhuang Qiu, Fernanda Ferreira, Emily Morgan	Epistemic modals and evidential parentheticals interact in language comprehension
A.17	Naho Orita, Koyo Akuzawa, Yusuke Kubota	Inferring attitude verbs using sentence-final expressions
A.18	Jun Lyu, Jiwon Yun	Resumptive pronouns and the processing of complex NP island: Evidence from eye-tracking during reading

A.19	Ning Zhu, Ruth Filik	The effects of social status on sarcasm interpretation: Evidence from the UK and China
A.20	Lola Karsenti, Aya Meltzer-Asscher	The effect of distance on parsing choices in Hebrew: Evidence for the prominence of thematic assignment during processing
A.21	Eva Klingvall, Fredik Heinat	The ERPs of lexical retrieval and discourse integration
A.22	Zheng Shen	Evaluating information structure and semantics approaches to locality in Colloquial Singapore English
A.23	Esperanza Badaya, Martin Corley	How do disfluencies affect prediction? Evidence from L1 and L2 listeners
A.24	Daniel Parker	Pronouns are susceptible to attraction in comprehension
A.25	Garrett Smith	Two models of how long it takes to answer a comprehension question
A.26	So Young Lee, Jiwon Yun	NPI intrusion effects in Korean relative clause processing
A.27	Greta Gandolfi, Martin Pickering, Holly Branigan	Aligning on contestable concepts: how do we come to see the world in the same way?
A.28	Camilo Rodriguez Ronderos, Paula Rubio-Fernandez	Contrast effects for color and scalar adjectives (but not material) in English, Hindi and Hungarian
A.29	C Jane Lutken, Anhiti Dharmapuri, Karin Stromswold	What Telugu speakers' questions reveal about Telugu
A.30	Mitchell Shortt, Rod Roscoe, Maria Goldshtein	Lexical Sophistication Differences across English Learners and Native Speakers
A.31	Saima Malik Moraleda, Edward Gibson	Bilingualism increases noise estimation during sentence processing

A.32	Alison Gabriele, José Alemán Bañón, Xiao Yang, Andrew Collins, Münir Özturhan, Simona Mancini, Manuel Carreiras, Robert Fiorentino	Referential ambiguity in native and nonnative processing: Evidence from ERPs
